Home Lift

Vivendi Compact

Stay IN YOUR HOME

The Vivendi Home Lift makes your life easier when stairs become too much.

Why go through the stress and upheaval of moving house? The Vivendi 'through the floor' Home Lift allows you to regain the freedom of your home, while keeping your staircase clear. It moves between floors smoothly and quietly, allowing you to travel safely and comfortably.

The Vivendi Home Lift requires much less space than a traditional lift. The footprint of the lift is so compact that it can be placed almost anywhere in your home. The Vivendi Home Lift can accommodate two people or a wheelchair user in the Standard model and a wheelchair user and attendant in the Longer Wider model.

Using the lift is simple, with an easy to use one-touch control in the lift car. A full height glazed door is provided and dimmable LED lighting illuminates the lift during use.

WE WILL TAKE CARE OF EVERYTHING

Purchasing and having your home lift installed is far less complicated than you might think.

We will survey your home and provide you with a written quotation. After your decision to proceed, we will first carry out all the necessary work. The installation itself takes less than two days.

PRODUCT *highlights*

- ✓ **No lift shaft required**, minimises the space taken up in your home
- ✓ **Stylish and versatile solution** for easy travel between floors
- ✓ **Minimal footprint** maximises living space
- ✓ State of the art **safety features**
- ✓ Quick and **hassle free installation**
- ✓ **Wheelchair models** available
- ✓ Designed & manufactured **in the UK**

peace OF MIND

The safety of you and your family is our priority. This is why the Vivendi Home Lift is equipped with all the essential safety features as standard.

Pressure sensitive safety surfaces stop the lift if it is obstructed from above or below. The lift also features a battery back-up system, allowing you to return to the ground floor safely in the event of a power failure.

Fire safety is an important consideration. The Vivendi Home Lift maintains fire and smoke protection between the floors, whether it is parked upstairs or downstairs. Smoke and heat alarms ensure the lift performs correctly in case of activation.

THE TERRY LIFTS *guarantee*

We guarantee the quality and safety of your home lift.

- ✓ Pressure sensitive surfaces and safe edges
- ✓ Emergency lowering in case of power cuts
- ✓ 30-minute fire and smoke integrity maintained between floors
- ✓ Smoke/heat alarms provided on both floors helping to ensure your safety
- ✓ Fully enclosed car on every model providing you with additional protection and peace of mind
- ✓ Complies with the 2006/42/EC Machinery Directive (CE mark)
