VERTICAL  
PLATFORM LIFT

# SIRIO

**extrōma**<sup>®</sup>  
solutions in motion

SIRIO is a vertical passenger platform lift, ideal for providing unrestricted access within homes built on more than one floor. SIRIO can be installed either on a supporting wall, by means of special wall-mounted supports, or using a steel frame structure, allowing the unit to be installed anywhere in the home. SIRIO's **compact size** makes it ideal for installation in particularly narrow stairwells. SIRIO is designed and built on a genuine **"tailor-made"** principle, exploiting every millimetre of space available.

Comfortable and very quiet, SIRIO adds to your home's value and prestige. With maximum travel of 19.5 metres, SIRIO is able to serve up to 6 floors in absolute safety and without interfering with the architecture of its installation area. SIRIO's electricity **consumption is impressively low**, similar to that of an ordinary household appliance.

Special care is taken over details and finishing, which combine with the **vast range of optional and colours available** to allow the lift to be personalised to the customer's specific taste and requirements. SIRIO can be installed on the inside or outside of buildings, and always offers the best service with any weather conditions. In the event of outdoor installation with direct access to the building, SIRIO can be equipped with special thermal barrier aluminium doors that ensure perfect draught-proof insulation.

## Technical data

Maximum load capacity	min 315 kg - max 500 kg (250 kg/m <sup>2</sup> )
Maximum platform surface	2 m <sup>2</sup>
Maximum travel	19,5 m
Stops	6 max
Headroom with hinged doors (wall shaft)	2200 mm min
Headroom with hinged doors (structure)	2350 mm min
Headroom with automatic sliding doors	2500 mm min
Speed	0,15 m/s max
Power supply	220 V ± 5% – 50 Hz
Electrical consumption	1,5 kW
Pit	120 mm
Controls at floors	one touch
Controls in cabin (with hinged doors)	hold to run
Controls in cabin (with automatic sliding doors)	one touch
Installation	indoor/outdoor

Sirio is complying with European Machinery Directive 2006/42/EC - UNI EN 81/41

# Doors

**Aluminium hinged doors**

- White RAL 9010 or RAL 1013
- Black RAL 9005
- Silver
- Anthracite
- Insulated version available

**Steel hinged doors w/ window**

- RAL 7011 rust preventer
- Stainless steel

**Steel hinged doors w/o window**

- RAL 7011 rust preventer
- Stainless steel
- EI 60/120 version available (RAL 7032, RAL 6020)

**Automatic sliding doors  
(central opening)**

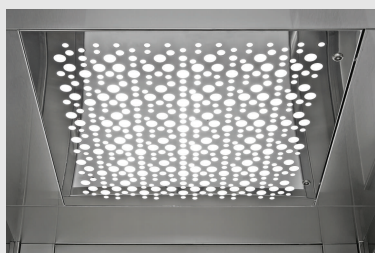

- RAL 7038 grey
- Stainless steel

**Automatic sliding doors  
(side opening)**

- RAL 7038 grey
- Stainless steel

# Cabin lighting

**Galaxy  
(Stainless steel)**

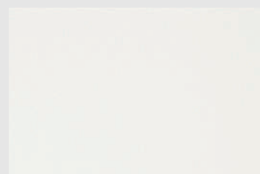

**Spots (2 or 4 spots)  
(Plastic cover sheet or stainless steel)**

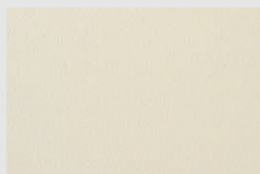

# Cabin walls

# Muse cabins range

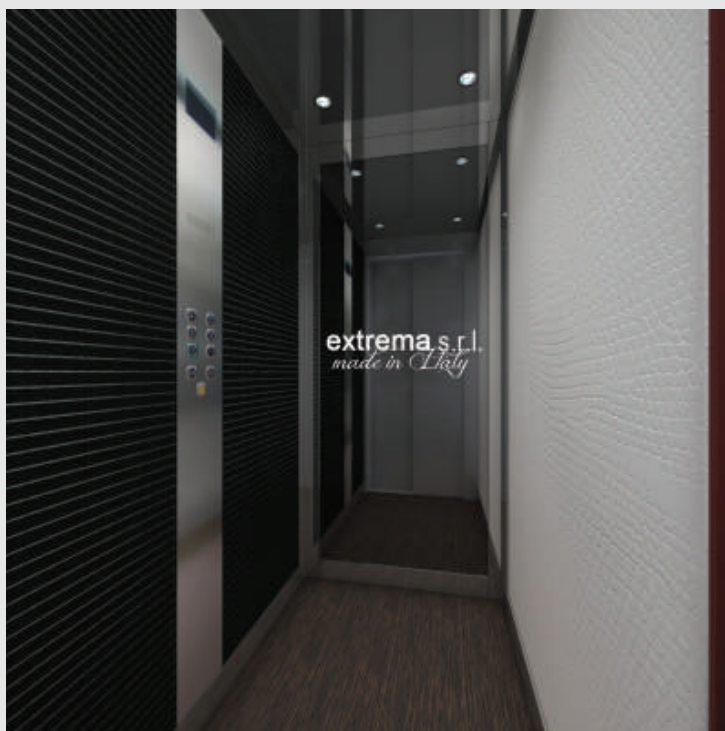

New luxury Muse cabins range: the pure elegant Italian interior design

This new range, created in collaboration with well-known Italian architects, is an expression of **elegance, prestige and high-class finishing**.

Italian precious wood, infills bearing customized logos, marks or texts, floors with **natural stone** inlaying, tailor-made coatings including leather or **Swarovski infills**, embedded stainless steel staves, stage lighting choice, are just some of the different options that you can choose from.

Every single cabin of the Muse line is designed in every detail to meet all kind of esthetic request. The wide range of **exclusive materials** that you can choose from offers the customer the opportunity to **create a unique product**.

# CREATING MOTION

Designing and building equipment that overcomes the architectural barriers and obstacles that prevent people with reduced mobility from moving around freely: this is our corporate mission.

The aim is to create "total quality" in all contexts, from the home to public buildings, whether space is limited or in plentiful supply.

All our products are based on painstaking design work, to guarantee the customer the best solution to access problems in every context, especially where space is at a premium.

We build superior-quality inclined and vertical platform lifts with the aid of outstanding technological know-how and a modern, dynamic vision of the market. Our company consists of a young, highly motivated team that takes the satisfaction of people's needs as its first and only objective.
